

# Concerned about the uncertainty surrounding in-person events?

THERE IS A SOLUTION

## CVENT ATTENDEE HUB

Create immersive, interactive in-person events with the option to pivot to virtual or hybrid without skipping a beat.

- Make your event accessible to those who cannot attend in person.
- Centralize everything attendees and speakers need, such as links and recordings for all sessions, bios, sponsor and exhibitor information, and more.
- Keep attendees engaged before, during, and after the event with features like Instant Networking, Q&A, Chat, Polling, Surveys, and Direct Messaging.

By creating a hybrid event on Attendee Hub from the beginning of your planning, you'll be able to go fully virtual quickly if needed.

Cvent is Yale's approved registration and events platform and is now available through Yale Conferences & Events. Pricing is need based.
